

COMFORT
LINE

Quiet confidence in every journey

The official ComfortLine visual and verbal identity system

2026.1

English

RU / EN / PL / FR

01 Brand strategy

Promise	A personal journey without uncertainty, door to door.
Character	Calm, dependable, attentive and international.
Difference	Human guidance where the journey is more complex than an ordinary taxi.

02 Logo and symbol

The symbol is a forward-moving ribbon shaped as a C. It represents motion, route and personal guidance. The horizontal lockup is primary.

Clear space

At least one wordmark cap-height on every side.

Minimum sizes

Digital lockup: 120 px. Symbol: 24 px. Print: 32 mm and 7 mm respectively.

03 Color system

Colors are assigned by semantic role. Gold signals action and premium attention; do not use it for long-form text.

04 Typography

Montserrat is the primary family. Use 800 for display, 700 for headings, 600 for subheadings and controls, and 400 for body copy.

Aa Montserrat

DISPLAY / 800	Quiet confidence
HEADING / 700	ComfortLine
SUBHEADING / 600	Door-to-door transfer
BODY / 400	Clear, concise and generous in line height.

05 Brand voice

Use	Avoid
Concrete facts, calm short sentences, clear next actions and honest descriptions of variable border conditions.	Unverified promises, flashy luxury, pressure, superlatives and keyword repetition.

06 Photography

Real vehicles and drivers, natural light, restrained color and journey context. Avoid stock luxury and excessive processing.

07 Application rules

Do not stretch, rotate, recolor, add effects, rearrange or place the logo on a busy background.

08 Accessibility

Interfaces follow WCAG 2.2 AA: 4.5:1 contrast for normal text and 3:1 for large text and essential controls.

09 File formats

SVG is the digital master; PDF/EPS for print; PNG for transparent raster; JPEG for fixed backgrounds; WebP for compact web delivery.
